Hi,

I have to be at the workshop today, so will miss the team meeting today. So for us, we are not being asked to do any additional work at this time, but we need to be prepared to

Jim – since you are only in the office a couple of more days, I would ask that you make sure we have access to your DW files in case we need to do something while you are gone. This is both the timeseries and your other PWC files, just in case we need them for something.

I can't guarantee that in the next month we won't be asked to reexamine something or do extra work. As such, I want to make sure we have the files we need. They can be placed on the G drive in the ERB2 chemical folder if that works for folks.

but in any case we will have to finalize the DWA right at the latest.
